The Difference Between High School In 1970 And 2015. This Guy Nails It.

Scenario 1: Jack goes quail hunting before school and then pulls into the school parking lot with his shotgun in his truck's gun rack.

1970 – Vice Principal comes over, looks at Jack's shotgun, goes to his car and gets his shotgun to show to his students.

"The difference between high school in 1970 and 2015" couldn't be more accurate -

So much truth, so little time.
